

Romisaa Shaeldeen khalied Mohammed

Faculty member of Fundamental Nursing And Basic Medical sciences Department , Faculty member of Department of Physiology at the Faculty of Medicine and Health Sciences, able to teach physiology subjects to students at various academic stages-mastering the skills to perform functional tasks and influence the contribution And development

Personal Profile

- **Name:** Romisaa Shaeldeen khalied Mohammed Bakheet
- **Date Of Birth Date:**01/01/ 1988
- **Nationality:** *Sudanese*
- **Sex:** Female
- **Religion:** Muslim
- **Current Address:** Russia – Moscow -People Friendship of Russia University. St, Miklokha Maklaya /Building 21,2
- **Email :** Romisaakhalied@gmail.com
- **Tel:** +79917092166 / +249919495781

Qualifications

- PhD in normal physiology of human and animal , Russia, People friendship of Russia (RUDN) university-2024
 - Completed the recommended courses of MSc (medical Surgical), and Complementary Research, Msc /University of Khartoum 2017.
 - Bachelors in nursing sciences 2012 fifth years (honor first class) University Of Khartoum. Faculty of Nursing Sciences.
 - **Academic Appointment:**
 - 2015 Teaching Assistant, Faculty of Nursing /International university Of Africa/departement of medical Surgical Nursing
 - 2016 Teaching Assistant, Faculty of nursing, Fundamental And Basic Medical Nursing Sciences /University of Khartoum
 - 2017 Lecturer, Fundamental And Basic Medical Nursing Sciences /University of Khartoum till now .
 - **List Of Publication:**
 - REACTION TO LOCAL COOLING IN STUDENTS NATIVE TO REGIONS WITH HOT CLIMATE
 - Current Medical and Biological Problems of Sports and Physical Education. 2024. P. 230-233
 - ON THE ISSUE OF PHYSIOLOGICAL CHANGES IN THE HUMAN BODY AS A RESPONSE TO LOW AMBIENT TEMPERATURES
 - .Paradigmatic attitudes of natural and human sciences: interdisciplinary aspect. OOO "VVM Publishing House". 2021. P. 41-43
-

Qualifications

- THE EFFECT OF CLIMATE CHANGES ON THE SUDANESE STUDENTS
- Ecological and physiological problems of adaptation. Peoples' Friendship University of Russia (RUDN). 2022. P. 217-218
- 4-The Reaction To Local Cooling Among Students From Hot Climatic Zone»
- the Second Congress of the International Society of Clinical Physiology and Pathology ISCPP2024
- USING BREATHING WITH HYPOXIC-HYPERCAPNIC GAS MIXTURES FOR REHABILITATION PURPOSES
- Modern approaches to organizing the process of physical education, physical training of the population, health and adaptive physical culture. Vladimir State University named after Alexander Grigorievich and Nikolai Grigorievich Stoletov. 2023. P. 125-128
- ASSESSMENT OF THE FUNCTIONAL STATE OF THE ORGANISM BY THE VARIATION OF PHYSIOLOGICAL CONSTANTS.
- Agadzhanian Readings. Peoples' Friendship University of Russia (RUDN). 2020. P. 193-195

-
- BLS training course
 - Training course in Yemen- Alkuit hospital- (Sanaa) 2010.
 - Attend Work shop on "END NOTE" applications 2015
 - Attend the 17th Meeting and 5th Conference of Scientific Society of Arab Nursing Faculties and the 1st conference of faculty of nursing sciences 2015
 - Attend Workshop in SPSS Program 2017
 - Attended the 1st International sepsis Symposium of Sudanese Sepsis alliance (SSA) 2016
 - Attended the Conference of Updates In Critical Care Medicine 2
 - Attend lecture in Scopus Author profile and the options of its correction 2020.

Training Courses

- Attend the lecture of article submission process and peer review system in an academic journal 2020.
- Attend the lecture of an organizing a research paper for international journal 2020
- Attend a lecture about Elsevier professional tools for working with scientific and technical information. 2020 .
- Attend online UNICA student webinar meeting .2020
- Attend Mendeley lecture in personal academic library and scientific communication tool 2021

-
- Supervision for Undergraduate Student In clinical Setting –International University Of Africa
 - Supervision for Undergraduate Student In clinical Setting –Khartoum University
 - Lecturer in Khartoum University till now
-

Experiences

(clinical Practice)

- Imperial Hospital 2012-2015 As registered Staff
- DarElelag Hospital 2014-2015
- Aliaa Specialist Hospital Till now
- **Administrative Experiences :**
- Work As Assistant Director Of Nursing In Imperial Hospital till 2017.
- Work as Assistant Director Of Nursing In Darelelag Hospital
- Work As Assistant Director Of Nursing In Aliaa Spesialist Hospital

Skills

- Scientific skills: (ability to understand and analyze the functions of various organs in the human body - anatomy and physiology of various biological systems - skills of applying the concepts of physiology to understand how biological organs and systems work).
- Research skills: (the ability to design and implement scientific research in the Nursing field and Physiology - the skills of data analysis and interpretation of results in the context of Nursing and Physiology - the ability to publish research in peer-reviewed scientific journals).
- Clinical skills: (ability to Assess and evaluate (to do a physical Examination) functions - diagnosis of diseases and disorders related to organ functions - development and implementation of appropriate treatment plans for organ functions).An ability to do An Evidence-Based practice. Providing Technical Communication, and Critical thinking Skills.
- Educational skills :(skills of teaching Nursing and physiology to students and colleagues - skills of training students and colleagues on research and analytical techniques in Nursing and Physiology - spreading awareness about the importance of Nursing, Physiology in public health).
- Interpersonal skills: (ability to effectively communicate with patients, colleagues, students - critical thinking skills, analysis of complex problems in Nursing Physiology).
- English Language
- Arabic Language
- Russian language
- Computer And Internet
